# Meet the five Indie Game Studios from THE LÄND

At **ENSO**, our goal is to establish a long-lasting indie studio that creates entertaining games through community building and transparency. To achieve this, we are taking our first steps by working on our debut title, *ENU* — a 2D action platformer with a unique twist.

We are **Half Soup Labs** — three passionate developers who have known each other since childhood. We founded our studio based on a shared love for games and game creation. After several small projects, we are now working on our first commercial release: *Glintseeker Island*.

**kaleidoscube** is an award-winning indie studio focused on atmospheric stories and clever mechanics. After charming players with the puppet-string puzzle platformer *A Juggler's Tale*, the studio twists time and reality in their upcoming adventure mystery *RECUR*.
